

AIES Academic Integrity Policy

Reviewed: October 2022

District-wide Philosophy

Academic integrity and personal integrity are fundamental components of a student's education and character development. In Academy School District 20, we believe that promoting academic integrity is the responsibility of the total school community. IB students, in accordance with the IB Learner Profile, work independently and collaboratively in a creative and principled manner. Principled learners demonstrate academic and personal integrity.

Community members, staff, parents, and other stakeholders will support District 20 students in demonstrating academic integrity, following the guidelines below. Only when there is commitment on the part of all concerned can a school's academic environment facilitate a healthy respect for the value of academic integrity.

As a member of the Academy International Elementary learning community:

- I am prepared to learn. I have all the items necessary to foster success in school.
- I am focused. I can work independently. I do my best.
- I participate actively in my own learning. I contribute in collaborative groups.
- I follow directions and listen with respect.
- I ask for help if I need it.
- I turn in my own work. If I have used another's work as a resource, I have given credit where it is due.
- I am a lifelong learner. I use inquiry and I make connections to build my knowledge.
- I demonstrate the IB Learner Profile.
- I demonstrate balance in my social, emotional, physical, and academic well-being.

IB Policy Review

This policy will be reviewed annually.
